International school
of programming

IT HERO Level 8
certificate

SILVIA EKLESIANA SITORUS
Date of birth: March 12, 2007

During the course, the graduate mastered the basics of programming in Python, solved problems of increased complexity, programmed a text quest, developed their own 2D game and windowed application. They also learned how to work in a team, test programs, and plan and present their projects.

Issued: June 25, 2025

ALG/PP1/1000256/06/25

Python Pro
1st year

Course program
1. Data types
2. Loops and lists
3. Functions and classes
4. 2D Games
5. Desktop applications

32 classes

64 academic hours
